9 Dragons by Michael Connelly

An investigation into a cold-blooded murder introduces Detective Harry Bosch to a Chinese underworld lurking in the dark recesses of the City of Angels. Its tentacles are far reaching, yet it remains shrouded in secrecy due to time-honored cultural traditions that keep the exploited from speaking out.

To the victim's family, Bosch promises revenge, but when his own daughter suddenly becomes a target, he promises blood. However, working a case with leads on both sides of the Pacific provides little room (or time) for error. *9 Dragons* is a gritty, coffee-and-cigarettes crime thriller full of smart twists and generous helpings of suspense. Fans of Michael Connelly can expect another exceptional thrill ride, while newcomers will be immediately engaged by the tortured and unrelenting Bosch. "He knew one day it would come to this, that the darkness would find [his daughter] and that she would be used to get him," writes Connelly. "That day was now." --*Dave Callanan*
